JUST **ABOUT** PLAY

JustPlay Music Academy is the Immersive Education Institution that puts young people at the centre of its work.

Our Lessons begin for students as young as 5 up to School Leavers and are built around termly targets that culminate in live performances in large venues at our JustPlay Concert Series where the public, friends, family and other musicians all join together to share and celebrate our students hard work and artistry. Furthermore our students have the opportunity to record their pieces in a professional recording studio and take Graded exams with ABRSM, Trinity and Rockschool exam boards, which carry qualifications and Ucas points.

JUST PLAY MUSIC LESSONS

We offer lessons within schools on all the core instruments, delivered by our team of professional instrumental tutors who's aims are to increase music participation within schools. We teach in your home, online, at school or in our recording studio to suit your lifestyle.

We provide all aspects of admin around the lessons including Student onboarding, timetabling, payments, reports and grading.

Additionally every student becomes part of our music school and is invited to take part in our masterclasses, clubs, recordings and termly young artists platform .

LESSONS IN ACTION

BIG **BAND**

Based in Multiple schools in London we teach over 250 students each week in small groups Guitar, Bass, Trumpet, Trombone, Saxophone and Clarinet. Students have recently performed in concert venues in and around London. Designed to give all new students to the school a free and first hand experience of learning an instrument as well as spending the whole term building on their ensemble skills, technique and reading skills.

YOUNG ARTISTS PLATFORM

Each term JustPlay searches for young artists, ensembles and bands who are ready to develop their ensemble and provide professional support through our youtube channel, video and audio recordings as well as headlining our termly concerts

Emerging Ensemble Platform

3 Times a year we explore new venues and invite some of our best young originals bands to create a night of musical performance for the general public. All these students go through our tutoring and recording scheme where they work with professional tutors, sound engineers and videographers to give them the experience and platform they need to develop.

Young Classical Artists Platform

3 times a year JustPlay visits 100s of schools and Colleges to find young soloists in need of a concert platform.

We design a concert programme featuring our students as well as world class performances by established musicians for the general public.

Once a year at our largest concert we invite students from all over Surrey and London to audition with us to take part in our scheme.

ASSEMBLIES

Every new school will get a free full assembly featuring live music, participation and q/a designed to inspire children to get involved in music.

JUST PLAY CLUBS

- **Choir**
- **Guitar**
- **Band**
- **Ukulele**

JustPlay Club is designed to compliment the music department of your school. Providing clubs for your school helps build momentum and enthusiasm for taking part in music lessons and music performances. We offer Choirs, Guitar club, Band Club and Ukulele Clubs.

All clubs are invited to our termly concerts as an ensemble.

CONCERTS

Termly concerts which students work towards as individuals sharing their solo pieces, in groups or bands or instrumentalists. Are excellent ways to motivate students to work in an inspired, enthusiastic, supportive environment.

Children from the very beginning are asked to take part to help our students understand and develop the skills required in performing to help build conviction and confidence as they develop.

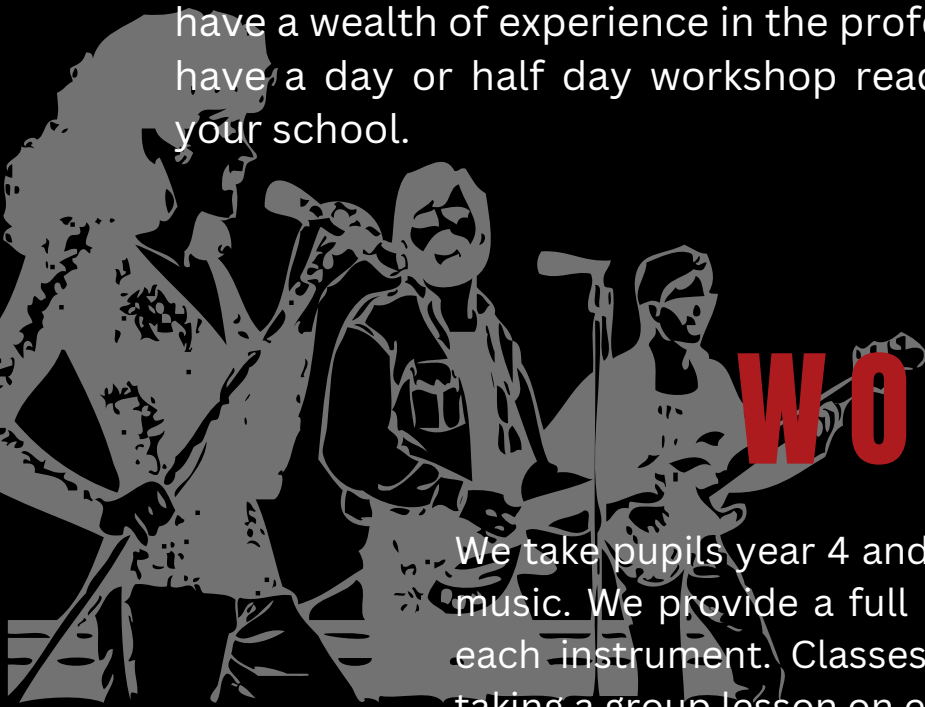

Students also share the stage with our young artists platform students as well as professional musicians to create a diverse musical atmosphere

WORKSHOPS

At JustPlay we have put together a great team of tutors who have a wealth of experience in the professional music world who have a day or half day workshop ready to meet the needs of your school.

BAND

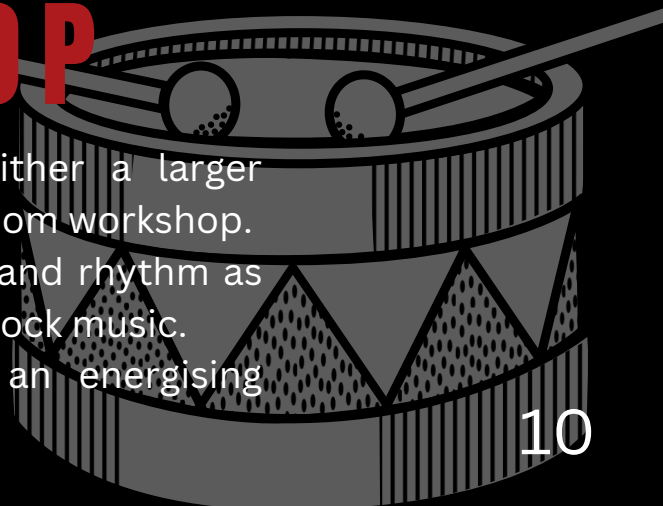

WORKSHOP

We take pupils year 4 and up on a journey through rock music. We provide a full backline as well as a tutor for each instrument. Classes of children rotate in groups taking a group lesson on each instrument which will walk them through a piece of music which the children will bring together throughout the workshop and perform for their peers

Percussion

WORKSHOP

Our percussion workshops can work in either a larger assembly size audience or equally as a classroom workshop. Options include exploring Latin instruments and rhythm as well as 20th/21st century European and pop/rock music. These workshops certainly work well for an energising activity!

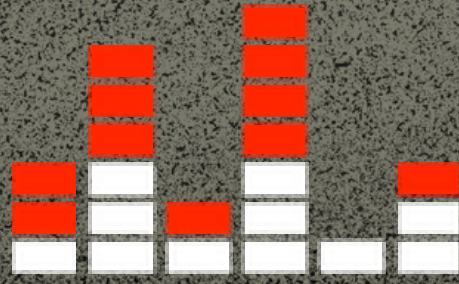

SATURDAY MUSIC SCHOOL

Our music school runs each week of term at powerhouse studios where students are immersed in a professional music making environment in rooms kitted out with equipment professional musicians would feel at home with. Designed to create an inspiring and comfortable environment our tutors run band rehearsals, 1/1 teaching and small group lessons.

Throughout the term all our students take part in recording sessions and video recordings to help prepare for their upcoming performances as well as for graded exams.

POWERHOUSE

S T U D I O S

Our HQ has played host to Brian, Moody Blues and Iron Maiden among many others. We are the local community for professional musicians, recording artists, videographers.

PowerHouse Studios also offer Starstruck parties which is a unique recording experience to make you feel like a proper Pop Star!

To find out more about our HQ & parties, follow these links:

JUST PLAY

Partner Schools

At JustPlay we design our programmes specifically to suit the needs and demographics of each school, helping them utilise their facilities and also aid in providing equipment.

All our music services are provided.
